ASSEMBLY

ASSEMBLY IN OUR WORKSHOPS!

Send us your forklift; we'll take care of everything:

- assembling the cabin
- kitting out the forklift
- returning it to your premises

ASSEMBLY IN YOUR WORKSHOP OR AT YOUR CLIENT'S PREMISES!

We'll travel to your workshops to take care of assembling the cabin on your forklift

Our assembly services include electrical and hydraulic connection of the equipment provided in your forklift (excluding electrical forklifts)

SPARE PARTS DEPARTMENT

Find all of our spare parts catalogues on our website

www.cabine-kbo.com

Our cabins change regularly to meet your needs and ensure the continual improvement of our products. To respond to your needs in terms of spare parts, we have implemented a series number that you will find inside the cabin. This number enables us to provide you with the correct part.

TECHNICAL DEPARTMENT

Find all of our assembly instructions on our website

www.cabine-kbo.com

We provide assembly instructions for most of our cabins. We've also set up a hotline to answer all of your technical queries.

A dynamic team to meet your every expectation in terms of cabin products
